

Welcome! Here you can access information to help you set up your accounts and get answers to questions. Your campus office staff will also be happy to help you.

PowerSchool is our new student information system (SIS)—a tool that will offer online access to important information such as your child’s grades, schedule, and attendance. To access PowerSchool, you’ll need to set up a parent account.

You can access PowerSchool through the Parent Portal link on our website.

In order to sign contracts and make online payments, you’ll need to set up an account in EduTrak, our new payment processor. You can access EduTrak from within PowerSchool.

The instructions are outlined below in video and text format.

Create a PowerSchool Parent Account
